

HUTHAIFA MAHMOUD

Computer Engineering Student

huthaifamahmoud@outlook.com | LinkedIn: [huthaifamahmoud](#) | +966503360842

PROFESSIONAL SUMMARY

Motivated Computer Engineering student in my third year with a strong foundation in Artificial Intelligence, software development, and programming. Proficient in Python, Java, and C, with hands-on experience building intelligent systems and solving complex computational problems. Complementary knowledge in networking principles. Seeking an internship or entry-level opportunity to apply technical skills in a real-world engineering environment.

EDUCATION

Bachelor of Computer Engineering

King Khalid University — Abha, Saudi Arabia

2023 – 2028

- GPA: 4.6 / 5.0

TECHNICAL SKILLS

- Quick Learner
- Adaptable to Change
- Keen Eye for Detail
- Flexible in Approach
- Strong Communication Skills
- Expert Problem Solver
- Collaborative Team Player
- Excellent Time Management

SOFT SKILLS

Programming Languages: Python, Java, C

Frameworks & Tools: VS Code, Microsoft 365, PyTorch

AI & Machine Learning: PyTorch, Deep Learning, Computer Vision, Regression Modeling

CS Concepts & Tools: Object-Oriented Programming (OOP), Networking Fundamentals, Verilog (HDL)

CERTIFICATIONS

- **AWS Academy Graduate — Cloud Foundations**— Amazon Web Services (AWS) (Apr 2026)
- **eJPT Intensive Training Camp**— Cybersecurity Club at King AbdulAziz University & Tuwaiq Club (Apr – May 2026)
- **Data Analysis**— Misk Career Essentials (Feb 2026)
- **Introduction to Artificial Intelligence**— KAUST Academy (Jan 2026)
- **AI Accelerator Program**— Industrial Engineering Club, King Saud University (2026)
- **Pre-Agentic AI Bootcamp**— PreHack, IBM SkillsBuild & EYouth (2026)
- **Flutter App Development Workshop**— HashPlus (2026)
- **Linear Algebra for Machine Learning and Data Science**— DeepLearning.AI / Coursera (Dec 2025)
- **Calculus for Machine Learning and Data Science**— DeepLearning.AI / Coursera (Dec 2025)
- **Probability & Statistics for Machine Learning & Data Science**— DeepLearning.AI / Coursera (Dec 2025)
- **Mathematics for Machine Learning and Data Science**— DeepLearning.AI / Coursera (Nov 2025)
- **Advanced Artificial Intelligence and Machine Learning**— KAUST Academy (Jun 2025)

- **HCIA-AI — Huawei Certified ICT Associate (Artificial Intelligence)**— Huawei (Apr 2025)
- **Python Basics**— King Khalid University (Jan 2025)
- **Cybersecurity Fundamentals**— IBM (Jul 2024)
- **Artificial Intelligence Fundamentals**— IBM (Jul 2024)
- **English for Computer Sciences & Information Technology**— King Khalid University (May 2024)

PROJECTS

Age Prediction from Face Images | Python, PyTorch, Deep Learning, Computer Vision

- Developed a CNN-based regression model using PyTorch trained on a dataset of 2,000 human face images to predict age. Implemented full ML pipeline including data preprocessing, model training, and evaluation, achieving accurate age estimation results.

Student Grading Program — Console Application | Java | Variables, Loops, Input Handling, Conditionals

- Built a single-method console program that accepts student names and marks, calculates the average, and determines pass/fail status. Demonstrated core programming fundamentals including loops and input validation.

Student Grading System — Object-Oriented Design | Java | OOP, Encapsulation, Inheritance, Abstraction, Polymorphism

- Redesigned the grading system using OOP principles with multiple classes (Student, UndergradStudent, GradStudent, RegistrationSystem). Supported distinct passing requirements per student type with full add/modify functionality.

Student Grading System — File I/O & Collections | Java | Arrays, Collections, File I/O

- Extended the grading system to handle multiple courses per student using arrays and collections. Implemented file persistence to save and load all student data from an external text file automatically on startup.
